

SUFFOLK COUNTY LEGISLATURE

BUDGET REVIEW OFFICE

March 5, 2020

To: Robert Calarco, Presiding Officer
and All Suffolk County Legislators

From: Lance Reinheimer, Director 
Budget Review Office

Subject: Year 2019 W-2 Compensation Report

Each year, the Budget Review Office issues a summary report on the W-2 earnings provided to the Internal Revenue Service (IRS) for all Suffolk County employees. This report is based on W-2 data generated by the Departments of Audit and Control and Information Technology Services that is extracted from the Payroll and Personnel System database.

In addition to 2019 data, this report includes historical W-2 data from 2015 to 2018. The report consists of nine sections: (1) Summary, (2) Description of the Data, (3) Number of Employees, (4) Total Remuneration, (5) Permanent Salaries, (6) Overtime, (7) Longevity, (8) Terminal Pay, and (9) Other Compensation. Three schedules are attached at the end of the report. Schedule 1 summarizes the data by department and bargaining unit, Schedule 2 lists the top 300 active wage earners, and Schedule 3 lists the top 300 active overtime earners.

I. Summary

- From 2015 to 2019 the active county workforce decreased by 198 employees; the number of active employees declined by 18 from 2018 to 2019.
- From 2018 to 2019, expenditures for all employees decreased in most W-2 categories. The largest decrease for any county wage category was \$11.8 million for permanent salaries, representing 60% of the net \$19.6 million decrease.
- The settlement of the Deputy Sheriffs Police Benevolent Association (DSPBA) contract for 2011-2018 included one-time retroactive payments in 2018, which partially explains the decrease in wages from 2018 to 2019.
- All bargaining units began 2019 without a contract. The Police Benevolent Association (PBA), Superior Officers Association (SOA), Suffolk Detectives Association (SDA), and Correction

Officers Association (COA) agreed to contracts without 2019 increases. The DSPBA and Detective Investigators are still without a contract.

- Although the number of active employees has remained relatively flat from 2018 to 2019, personnel costs have decreased because of historically high turnover whereby higher paid senior employees are replaced by entry-level employees.

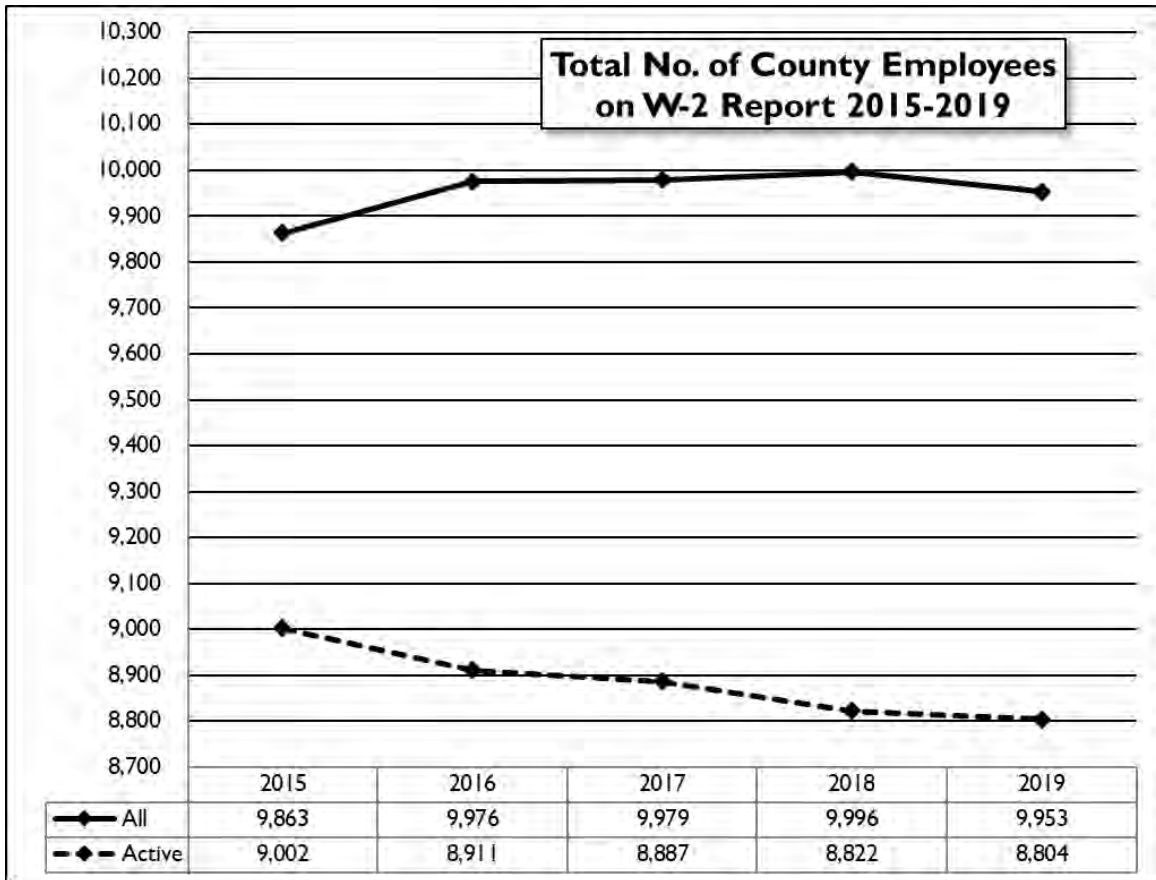

2. Description of the Data

- The wages reported on W-2 forms include all wages paid to employees during the calendar year, regardless of when they were earned.
- The IRS requires that dollar amounts be attached to certain taxable benefits such as commutation in county vehicles and legal benefits offered through the various benefit funds. Because the values of these benefits must be reported as income, the earnings totals reported to the IRS on the W-2 forms is slightly greater than direct payroll costs, averaging \$141 per active employee in 2019.
- The wages reported are based on when employees were compensated, not necessarily when wages were earned or accrued by the Department of Audit and Control. Consequently, there is a disconnect between W-2 compensation and actual budget expenditures.
- The W-2 data classifies employees in three categories: active, new, and terminated. Active employees were employed by the County from January 1, 2019 to December 31, 2019. New employees began county service at some point during the year. The classification “terminated” does not imply any negative employment action, but simply indicates that the individual left county employment during 2019. The majority of the data in this report focuses on active employees because inclusion of employees that worked a portion of the year skews the averages.
- This report presents information on average salaries, overtime compensation, terminal pay, and other compensation; it does not assign values for employee benefits: health insurance, Social Security, employee benefit fund, and employer contributions to the New York State Employees’ Retirement System (ERS) and Police & Fire Retirement System (PFRS).
- Some employees work in positions that are not typically considered permanent authorized positions. They skew the overall data due to the specific nature of their jobs, and were omitted from calculations: Health Department part-time Registered Nurses (BU 13), temporary employees (BU 22), Health Department part-time Clinic Aides (BU 25), and School Crossing Guards.

3. Number of Employees

The following chart shows the number of permanent county employees receiving IRS reportable wages from 2015 to 2019. The solid line accounts for all employees, including those that worked only part of the year as a result of beginning employment or separating from the payroll. The dashed line includes only active employees that were on the payroll for the entire year.

The number of active county employees decreased by 18 from 2018 to 2019 and by 198, or 2.2%, from 2015 to 2019. Although the number of active employees on the payroll for the full year has declined each year since 2011, the total number of employees receiving compensation at some point in the year increased annually from 2015 to 2018 before declining again in 2019. The observed trend can be explained by a high turnover rate in recent years. Although the County has increased the number of employees that are being hired, hiring has not kept pace with separations.

The next table shows the number of active permanent county employees by bargaining unit from 2015 to 2019. The net reduction in the active workforce from 2015 to 2019 was 198. Over the five-year period, the Association of Municipal Employees (AME, bargaining units 2 and 6) declined by 239, the COA declined by 52, and three other bargaining units combined for a reduction of 19. These reductions were partially offset by an increase of 112 for other bargaining units, including 77 in the sworn police unions.

4. Total Remuneration

W-2 wages are divided into nine categories: salary, overtime, longevity, terminal pay, workers compensation, peace officers workers compensation, car allowance, legal benefits, and other compensation. In this report, we combine into one category the two types of workers compensation; we also combine the legal benefit and car allowance. The “other” category includes several types of compensation, but is primarily comprised of holiday pay and night differential for law enforcement. The following table shows total remuneration by category for all employees since 2015.

Total Remuneration for All Employees by Category								
Year	Salary	Overtime	Longevity	Terminal Pay	Workers Comp	Other	Legal & Car	Total
2015	\$736,877,274	\$95,323,612	\$25,421,025	\$23,761,928	\$13,262,715	\$54,695,841	\$686,239	\$950,028,634

The next table shows total remuneration for just active employees by category. The amounts are less because it excludes employees who worked only a portion of the year as well as the majority of terminal pay. Some active employees received terminal pay if they retired from one bargaining unit and began work in another bargaining unit without leaving county employment. In 2016, retroactive payments to Deputy Sheriffs as part of the highway patrol settlement were categorized as terminal pay.

Although the number of active employees has trended consistently downward, employee remuneration has increased each year from 2015 to 2018. Due to step increases and contractually negotiated cost of living increases, the growth in cost for employees who remained on the payroll exceeded the savings realized from employees leaving county service. The fact that sworn police personnel has increased also contributes to the growth in costs because these employees typically earn more than nonpublic safety employees.

Total remuneration decreased from 2018 to 2019 for several reasons. First, one-time payments totaling approximately \$7.1 million associated with the settlement of the 2011-2018 Deputy Sheriff contract were paid in 2018, but not repeated in 2019. Second, every county bargaining unit began 2019 without a contract. With the exception of the Probation Officers Association (POA), no public safety contract settled during the year included 2019 increases. The following table shows total remuneration to county employees from 2015 to 2019 for all employees and just active employees.

With the exception of workers compensation, payments to all employees increased by category from 2015 to 2019. The largest increase was \$45.7 million for permanent salaries, more than half of the \$80.9 million net increase over the five-year period; however, terminal pay increased the most by percentage at 73%.

For all employees, each major category of remuneration decreased from 2018 to 2019 with the exception of the “Other” category, which increased by 0.2% and Legal/Car Allowance, which increased by 16%. The total decrease for all employees was \$19.6 million; the largest decrease was \$11.8 million in permanent salaries. The following table shows the growth in total remuneration for all employees by category.

The next two tables show total remuneration for active employees since 2015 by bargaining unit. The first table shows total dollars paid and the second table shows the amount paid per employee (total dollars / no. employees). Total remuneration for all active employees decreased by 1.4% from 2018 to 2019, but increased by six percent since 2015. The rate of growth in total remuneration per active employee is greater than the aggregate, decreasing by 1.2% from 2018 to 2019 and increasing by 8.3% since 2015.

5. Permanent Salaries

Permanent salaries constitute the majority of total remuneration for active employees. Salaries are more than 94% of all employee compensation for Exempt, Confidential, POA, and AME white-collar employees. Salaries are a smaller percentage of total remuneration for public safety unions whose employees typically earn a substantial amount of overtime as well as payments not typically earned by other bargaining units, including holiday pay and night differential. In 2019, salaries accounted for 70% or less of total compensation for the PBA, COA, DSPBA, and SDA.

Typically, the two major factors that affect salary costs are the number of employees and collective bargaining agreements. Each county bargaining unit began 2019 without a contract. AME and the PBA settled in May, the COA settled in July, the POA settled in August, and the SOA settled in December. The SDA settled in January 2020. Currently, every bargaining unit has a contract through 2024 with the exception of the DSPBA and the Detective Investigators. The POA and AME were the only unions to negotiate increases in 2019 (AME increases are extended to Exempt, BOE, and Confidential employees per the Suffolk County Charter).

Permanent salaries increased for every bargaining unit from 2015 to 2019 except for AME, PBA, Detective Investigators, and Confidential employees. The decrease in cost for the PBA is a result of the highest paid employees retiring or being promoted to other bargaining units and being replaced by entry-level employees. For the other bargaining units with decreased salary costs, the reduction is attributable to the fact that the number of employees has decreased.

From 2018 to 2019, permanent salaries decreased by \$8.7 million. PBA salaries were \$9.9 million less due to turnover and DSPBA salaries were \$4.4 million less because 2018 included one-time retroactive payments. The decreases were partially offset by a \$3.7 million increase in Exempt salaries, a \$1.9 million increase in SDA salaries, and \$1 million increase in SOA salaries. The following table shows total permanent salaries for active employees since 2015.

6. Overtime

Overtime is the second largest category of employee remuneration. Overtime for active employees increased by 11% since 2015, whereas permanent salaries increased by only five percent during the same period. As staffing levels decreased, the County has relied on overtime to address workload demands, shifting a large percentage of growth in personnel expenditures from permanent salaries to overtime. However, county departments have been working to reduce overtime hours and the cost per hour has been decreasing somewhat due to the replacement of senior staff with entry-level employees.

Overtime decreased by \$4.8 million from 2018 to 2019 due to a reduction in the Sheriff's Office, which experienced abnormally high overtime in 2018; the DSPBA was down \$2.7 million and the

COA was down \$2 million. The next two tables show total overtime and overtime per employee for each bargaining unit from 2015 to 2019. The PBA earns the greatest amount of total overtime, but the most overtime per employee is earned by Deputy Sheriffs.

Note that in addition to overtime salaries (Objects 1120 - Overtime Salaries and 1620 - OT-Straight Time); the W-2 database includes Special Holiday Pay (Object 1330) in this field. Special Holiday Pay is unique to the Police Department and accounted for approximately \$7.2 million in 2019 for all employees (active, new, terminated).

7. Longevity

Longevity is paid to county employees based on years of service. Employee eligibility and amount paid varies by bargaining unit. Countywide, 6,527 active employees received longevity pay in 2019, which is approximately 74% of the active county workforce. Longevity payments are typically increased incrementally when union contracts are settled; however, cost increases tend to vary dramatically from year to year, especially for public safety unions where many employees are hired on the same date. A spike in costs exists when large groups of employees become eligible for longevity or reach the next seniority threshold. In 2019, longevity is modestly higher than in 2018. The following table shows longevity costs by bargaining unit since 2015.

8. Terminal Pay

Employees separating from county service are entitled to be compensated for any deferred pay as well as unused personal and vacation accruals. Retiring employees are also compensated for a portion of unused sick accruals. The two most significant factors that affect the County's terminal pay expenses are the number of retirements and the bargaining units of employees retiring. In 2019, 588 employees that separated from the county payroll received a total of \$40.8 million in terminal pay (does not include payment to active employees or employees receiving no term pay). Individual payments ranged from \$3 to \$457,650; the average amount paid to all employees that received terminal pay in 2019 was \$69,470.

Typically, sworn personnel in the Police Department earn the majority of terminal pay. In 2019, the PBA, SOA, and SDA accounted for 21% of the number of separating employees receiving terminal pay and 74% of the total cost. In contrast, AME employees (White and Blue) accounted for 54% of employees receiving terminal pay and 13% of the total cost. The PBA had the highest terminal pay costs, \$12.6 million. The SOA had the highest average cost at \$339,359 per employee. The following table summarizes 2019 terminal pay by bargaining unit.

Terminal pay increased from \$23.8 million in 2015 to \$43.7 million in 2018, but decreased by \$2.5 million from 2018 to 2019. Over the five-year period, term pay has increased by 73%. The following factors have contributed to the dramatic growth:

- The number of sworn personnel retiring has increased in recent years.
- The value of accruals has increased due to wage increases.
- Contracts negotiated over the past several years included pay deferrals, which has increased the amount due to employees upon separation.

The following table shows terminal pay by bargaining unit from 2015 to 2019. Note that terminal pay in the table below is slightly higher than in the previous table because that data refers only to employees separating from the payroll. Several employees retire each year, but have no break in service because they either remain active part-time or accept a position in another bargaining unit.

9. Other Compensation

This category includes workers compensation, taxable legal benefits and car allowance, and other types of remuneration. The “Other” category is primarily comprised of holiday pay and night differential for law enforcement employees. The following table shows IRS reportable wages paid to county employees for these categories from 2015 to 2019.

Other Compensation 2015-2019 for Active Employees

2019	\$8,006,137	\$59,558,381	\$1,237,569	\$68,802,087

Workers compensation is paid predominantly to law enforcement employees. From 2015 to 2019, sworn police personnel accounted for an average of 84% of workers compensation payments. Sworn police personnel, in conjunction with other peace officers and police officers, including Correction Officers, Deputy Sheriffs, Probation Officers, and Detective Investigators, accounted for an average of 96% of workers compensation payments. The following table shows workers compensation payments to active employees from 2015 to 2019. Note that amounts paid reflect only employee compensation and do not reflect indemnities, medical expenses, and other expenses. The County’s total workers compensation expenditures are approximately \$31 million in 2019 as of 2/1/2020. Workers compensation payments are down for the fourth straight year.

As is the case with workers compensation, the vast majority of “other” remuneration is paid to law enforcement employees. Less than five percent of these payments were made to active employees in 2019 that were not represented by the three sworn police unions, the COA, or the DSPBA. The following table shows other compensation for active employees by bargaining unit from 2015 to 2019. These expenditures have increased each year.
