RE: CEQ Review of the 2022 Vector Control Annual Plan of Work

---

At its October 13, 2021 meeting, the Suffolk County Council on Environmental Quality (CEQ) reviewed the above referenced matter. Pursuant to Chapter 450 of the Suffolk County Code, and based on the information received, as well as that given in a presentation by Tom Iwanejko, Director of Vector Control with the Suffolk County Department of Public Works, the Council advises the Suffolk County Legislature and County Executive, in CEQ Resolution No. 35-2021, a copy of which is attached, that the proposed 2022 Vector Control Annual Plan of Work will be carried out in conformance with the conditions and thresholds established for such actions as set forth in the Suffolk County Vector Control & Wetlands Management Long Term Plan Final Generic Environmental Impact Statement (FGEIS) and associated Finding Statement as approved by Suffolk County in 2007. Therefore, consistent with the Vector Control Findings Statement, the 2022 Vector Control Annual Plan of Work is a Type II Action with no further SEQRA compliance required pursuant to 6 NYCRR, Part 617.10(d)(1). The CEQ also recommends that Suffolk County continue to conduct literature reviews for any breakthroughs in science on the pesticides in use, or of potential use, by the Suffolk County for Vector Control, and continue to document significant findings of the literature reviews in the SEQRA record.

If the Legislature concurs with the Council on Environmental Quality's recommendation that the action is in conformance with the FGEIS and Finding Statement, the Presiding Officer should cause to be brought before the Legislature for a vote a determination that SEQRA is complete and no further compliance is necessary.

Enclosed for your information is a copy of CEQ Resolution No. 35-2021 which sets forth the Council's recommendations. The project EAF and supporting documentation can be viewed online at:

**RESOLUTION 35-2021, CONCERNING A SEQRA DETERMINATION FOR THE PURPOSES OF CHAPTER 450 OF THE SUFFOLK COUNTY CODE FOR THE SUFFOLK COUNTY 2022 VECTOR CONTROL ANNUAL PLAN OF WORK**

**WHEREAS**, at its October 13, 2021 meeting, the Suffolk County Council on Environmental Quality reviewed the EAF and associated information submitted by the Suffolk County Department of Public Works, Division of Vector Control for the Suffolk County 2022 Vector Control Annual Plan of Work; and

**WHEREAS**, a presentation regarding the proposed action was given at the meeting by Tom Iwanejko, Director of Vector Control with the Suffolk County Department of Public Works; and

**WHEREAS**, the proposed action involves the implementation of the 2022 Vector Control Annual Plan of Work by the Suffolk County Department of Public Works, Division of Vector Control, to control mosquito infestations that significantly threaten public health, or create social or economic problems to the communities in which they occur. To achieve this goal, the Division employs an integrated control program. Control measures are employed in a hierarchical manner that emphasizes prevention. Control first proceeds from surveillance and more permanent "environmentally friendly" measures such as water management and biological control, then through the use of highly specific larvicides and finally, the use of chemicals such as adulticides only after other measures prove to be either insufficient or not feasible. This integrated approach is recognized as the most effective and environmentally sound manner in which to conduct a mosquito control program. Only pesticides that are federally and New York State registered and approved for mosquito control will be used. All wetland management work for the purpose of eliminating mosquito breeding areas that involve wetland Best Management Practices (BMPs) 5 through 15 (as defined in the Vector Control Plan) will be reviewed by the Suffolk County Office of Ecology within the Department of Health Services, the Suffolk County Department of Economic Development and Planning, the Suffolk County Council on Environmental Quality and the Suffolk County Legislature and will be approved by the New York State Department of Environmental Conservation in order to minimize environmental impacts on wetlands; and

**WHEREAS**, Suffolk County Resolution No. 285-2007 adopted the Suffolk County Vector Control and Wetlands Management Long Term Plan and State Environmental Quality Review Act Findings Statement for the Final Generic Environmental Impact Statement; now, therefore, be it

**1<sup>st</sup> RESOLVED**, that based on the information received, a quorum of the Council recommends to the Suffolk County Legislature and County Executive, pursuant to Chapter 450 of the Suffolk County Code, that the proposed Suffolk County 2022 Vector Control Annual Plan of Work will be carried out in conformance with the conditions and thresholds established for such actions as set forth in the Suffolk County Vector Control & Wetlands Management Long Term Plan's Final Generic Environmental Impact Statement and associated Finding Statement as adopted by Suffolk County. Therefore, consistent with the Suffolk County Vector Control's Finding Statement, the Suffolk County Vector Control 2022 Annual Plan of Work is a Type II Action with no further SEQRA compliance required pursuant to Title 6 NYCRR Part 617.10(d)(1) and the Legislature and County Executive should adopt a resolution stating as such; and, be it further

**2<sup>nd</sup> RESOLVED**, the CEQ also recommends that Suffolk County continue to conduct literature reviews for any breakthroughs in science on the pesticides in use, or of potential use,

by the Suffolk County for Vector Control, and continue to document significant findings of the literature reviews in the SEQRA record.

RE: CEQ Review of the Recommended SEQRA Classifications of Legislative Resolutions  
Laid on the Table September 9, 2021

---

At its October 13, 2021 meeting, the CEQ reviewed the above referenced matter. Pursuant to Chapter 450 of the Suffolk County Code, and based on the information received, the Council recommends to the Suffolk County Legislature and County Executive in CEQ Resolution No. 36-2021, a copy of which is attached, that the enclosed list of legislative resolutions laid on the table for September 9, 2021 be classified pursuant to SEQRA as so indicated in the left hand margin. The majority of the proposed resolutions are Type II actions pursuant to the appropriate section of Title 6 NYCRR Part 617.5, with no further environmental review necessary. Unlisted and Type I actions require that the initiating unit of County government prepare an Environmental Assessment Form (EAF) or other SEQRA documentation and submit it to the CEQ for further SEQRA review and recommendations.

Enclosed for your information is a copy of CEQ Resolution No. 36-2021 setting forth the Council's recommendations along with the associated lists of legislative resolutions.

If the Council can be of further help in this matter, please let us know.
